Gly-Vak[®]

- Vacuum toilet maintenance chemical
- Ideal for use on new or minimally scaled vacuum systems
- Safe, non-corrosive and highly effective in removing salt deposits
- Does not physically damage the surface of vacuum toilet or vacuum line components
- Safe for use on-wing
- Systems treated with Gly-Vak[®] will be less susceptible to re-deposition and failure
- Reduces labor costs
- For highly scaled pipes, use in conjunction with Gly-Vak[®] Thin
