

Technical Data	'KI-OSE' AEROSOL Disinfectant aerosol	<i>doc.Inf/Tech3/0.103</i>
Edit : Jan 95	# 325 – 0114DS002.6 # 327 - 0114DS002.7	Rev. : JUN05

KI-OSE formulated in aerosol is a powerful **disinfectant, freshening and cleaning** agent suitable for :

- **disinfecting** dirty surfaces
- **disinfecting** areas such as : hotel rooms, aircraft cabins and containers.....

USE

Aerosols are formulated with **CFC free propellant (approved by W.H.O. in 1996)**, are **NON-FLAMMABLE** and can be sprayed through either :

- multi-shot release dispenser
- or - one-shot release dispenser for areas. For this purpose, press down one-shot actuator and leave the area closed during two hours to complete a maximum efficiency.

CHARACTERISTICS

Aerosol can :

- **one-piece aluminum printed can** - neck 1" - internally lacquered
- internal pressure at 50° C : 12 bars
- bursting pressure : equal or above 18 bars, validity date printed on each can

TECHNICAL DATA

- **Disinfectant, bactericide, fungicide, virucide** : KI-OSE active ingredients are non selective and are effective against a wide range of viruses, bacteria and fungi.
- **Freshener** : leaves a mild mint/eucalyptus fragrance after use.

EFFICIENCY

KI-OSE has been tested against the following bacteria and destroys them in less than 5 minutes (99.999% efficient) : Staphylococcus Aureus - Choleraesuis - Pseudomonas Aeruginosa - Salmonella-Candida Albicans

KI-OSE does not harm or damage fabrics, plastics, metals, rubber or other surfaces.

Non toxic, non staining, no skin irritation is occurred.

AGREEMENTS

KI-OSE satisfies the microbiological test results AFNOR NF T72190 -72151 - 72301(candida albicans)

Ministries of Health - AIRBUS - IATA - Registration number : 9200343

PACKAGING : **Net weight 100 grams - 100 ml** ... **# 325**
 Net weight 400 grams - 400 ml ... **# 327**

PACKING : approved **IATA** carton

325 : 50 units carton weight : 8 kg

327 : 12 units carton weight : 10 kg

NATO CODE FA2X6

(PSA-FT00-05)
